

# All Your Reading In One Place!

## What is it?

**The Palace Project is an app that allows you to have all of your library e-materials in one place on your personal device.**

**Palace is designed to work with iOS & Android devices; may not play well with Amazon products such as Fire Tablets or Paperwhites. Be sure to check the Device Compatibility page if you have patron questions.**

## How do patrons use it?

- **Download the app from the app store on your device.**
- **Find “Mountain Regional Library System.”**
- **Create an account using your library card number & pin**
- **Begin browsing!**

**You cannot read magazines through Palace! Those are Libby only.**

## How is it different from Libby?

**The Palace Project allows you to keep all your library materials in one place instead of through each individual app. There are also books on there that are not on Libby. A patron can have and use both on their device as they wish.**

**Patrons can email [support@thepalaceproject.org](mailto:support@thepalaceproject.org) if they need help - we cannot troubleshoot everything**
