How is the Palace App Different from Libby?

- The Palace Project app allows you to keep all your library materials in one place instead of through each individual app. There are also books on there that are not on Libby.
- The Palace App does not have magazines, those can only be read through the Libby app.
- Using the Palace app doesn't mean that Libby will go away. Patrons will still be able to use other apps, to read, borrow, and place holds. Loans and holds placed in the Libby app will sync into the Palace app.
